Sponsorship Opportunities

The ROC Industry Advisory Council Building Blocks of the Community Awards & Banquet is an opportunity to showcase the countless hours and effort that contractors invest into our communities statewide. The 2008 event is expected to attract 400 attendees and recognize general contractors, subcontractors, contractor associations and corporate associates for the generous work they do across the state to make life better for Arizonans in need. This special event serves as a national model and continues to recognize the extraordinary contributions made to the community in 2007. Join us in this celebration by becoming an event sponsor and attendee today!
